Preface

One speciality of Hindu Dharma and the subcontinent of Bharat is that remarkable incidents of the future have been pronounced much before they have actually taken place. Sage Vālmiki, whose brilliance was unparalleled, first compiled Rāmāyaṇa. It is only after the compilation of the epic that Prabhu Shrīrām, the Incarnation of Shrī Vishṇu, was born and the historic Rāmrajya materialised on the earth.

Before the birth of Bhagawān Shrīkrushṇa too there was an Ākāshavāṇī (Divine message). Bhagawān Shrīkrushṇa, whose birth was as per the Ākāshavāṇī, established Dharma (Righteousness) and Dharmarājya (Dharma-based Kingdom) was re-established on the earth. Parātpar Guru (Dr) Athavale, an authority on Spirituality, first put forth the thought that the Divine Kingdom (meaning, the 'Hindu Nation') will be established in Bharat in the year 2023. After this farsighted declaration, He has been writing consistently on the subject of the 'Hindu Nation' at the intellectual as well as the spiritual level. It is in these thoughts that the seed of the ideal structure of the Nation, meaning, establishment of Dharma is placed. Many would feel that talking about the 'Hindu Nation' when practically nothing is happening in that direction at the gross level is an overstatement; however, Saints who know the future have already sensed the bright future. Making efforts in that direction is our spiritual practice.

This Holy text is a collection of thoughts pertaining only to the direction for establishing the 'Hindu Nation' from among the writings on the subject of the 'Hindu Nation' by Parātpar Guru (Dr) Athavale. It includes notes and articles He has written on the subject from time to time.

Many scholars have defined the term 'Hindu Nation' based on Geography, History, Culture and Philosophy. On the other hand, Parātpar Guru (Dr) Athavale has elucidated the subject from the spiritual perspective. It can be easily deduced from this Holy text that establishing the 'Hindu Nation' not only in Bharat (that teaches the world the expansive spiritual philosophy of benevolence of the world), but the entire world is a spiritual process.

Great personalities such as Swatantryaveer Savarkar, first Sarsanghachalak (Chief) of the RSS Dr Hedgewar, H.H. Golwalkar Guruji put across their thoughts on the 'Hindu Nation' very powerfully.

Sadly, the sub-continent of Bharat, which was inherently a 'Hindu Nation', became a secular Nation after Independence, and the glowing concept of the 'Hindu Nation' was eclipsed. Rāmrajya (Rule of Shrīrām, which also means the rule of righteousness) is being labelled as a myth in the same region where it was actually

established. Efforts are being made to push the Hindavi Swarājya (Hindu self-rule), meaning, the 'Hindu Nation' established by Chhatrapati Shivaji Maharaj into oblivion, and under the pretext of secular kingdom, paint it green. The 'Hindu Nation' is being equated with fanaticism deliberately. Secularism has caused enough problems for the Nation and yet, those who have blind faith in secularism want Bharat to continue as a secular Nation. The concept of the 'Hindu Nation' does not even exist in their realm. They are ignorant of the fact that the real issue is not a secular Nation or a 'Hindu Nation'. In the next two-three years, the issue that will take prominence is 'Islamic state' or the 'Hindu Nation'. Under these circumstances, only that thought process which is directed at uniting the Hindus can protect our Nation and establish the 'Hindu Nation'. So that the yearning for the 'Hindu Nation' transforms into a seed of success, there has to be uniformity in thought, speech and conduct pertaining to the 'Hindu Nation' of the Hindu society.

This Holy text is a guide to the various constituents of the Hindu society (such as Hindu organisations, sects, Saints, advocates, scholars etc.) It elaborates on what has to be done to establish the 'Hindu Nation'.

By taking inspiration from the encouraging thoughts of Parātpar Guru (Dr) Athavale, may each reader be motivated to shoulder the responsibility of establishing the 'Hindu Nation' in Bharat to the best of his ability, which will give the spiritual experience of Rāmrājya and may each reader work tirelessly to accomplish this mission at the physical, psychological, intellectual and spiritual levels - this is our prayer at the Holy feet of Prabhu Shrīrām. - **Compilers**
