## Introduction to Authors

### **Sanatan Sanstha's Sadguru, Doctor & Vaidyacharya Vasant Balaji Athavale**

[M.D. (Paediatrics), D.C.H., F.A.M.S.]

Sadguru (Dr) Vasant Balaji Athavale was a renowned Paediatrician. He founded the Paediatrics Department in 1959 in Lokmanya Tilak Mahanagarpalika Hospital, Mumbai. He was Professor and Head of this Department from 1960 to 1990. He was the Chairman of the 'International Conference on Alternative Medicine' in Bangkok in 1980. In 1996, He received the international honour for the 'Best author of books on Ayurveda'. In 2001 and in 2012 respectively, He was honoured with the 'Lifetime Achievement Award' in an International conference on 'Ayurveda and Hepatic Disorders' and by the Indian Academy of Paediatrics.

#### **1. The journey from being a seeker to becoming a disciple**

**A. Selflessness and the attitude of sacrifice, which are essential for spiritual practice :** He started noting down higher level philosophical thoughts on Spirituality in 1980. He toiled day and night to create a vast treasure of knowledge on Spirituality. Very altruistically, He donated this treasure to Sanatan Sanstha in 1990, soon after it was established. This sacrifice, before He became a Saint, indicates the level of His spiritual practice and seekership. Due to His writings, Sanatan's Texts are now becoming inclusive in the true sense.

**B.** In 2004, He became a disciple of Sachchidananda Parabrahman (Dr) Athavale (A great Saint who is also His younger brother and the Founder of Sanatan Sanstha, the world-renowned spiritual organisation).

## 2. Attaining Sainthood

On 16.12.2012, He reached Sainthood due to His spiritual emotion, intense yearning, inquisitive nature and humility.

**A. He attained Sainthood by performing spiritual practice through various Paths of Spirituality :** Every person performs spiritual practice as per some path of Spirituality, becomes introverted, progresses spiritually and thus moves towards Sainthood. However, Dr Vasant Athavale attained Sainthood by performing spiritual practice as per Karmayoga (Path of action) by serving His patients, Jnanyoga (Path of knowledge) by writing Texts, Bhaktiyoga (Path of devotion) and Gurukrupayoga (Path of Guru's grace).

## 3. Active in seva for Sanatan's mission until His last breath

He kept performing satseva for Sanatan's mission until His last breath. When He came to know of Divine particles found in Sanatan's Ashram, He inquisitively studied the subject, contemplated on how to conduct research on this topic from a scientific perspective and gave His own suggestions.

He renounced His body on 9.11.2013 at the age of 80.

**The reason for the honorific Sachchidananda Parabrahman for Dr Jayant Athavale**

As per the instructions of Saptarshi through Saptarshi Jeevanadipatti, Paratpar Guru (Dr) Athavale is being addressed as Sachchidananda Parabrahman (Dr) Athavale since 13.6.2022. The intent in the instruction is that everyone benefits from the Divine Principle in Him. - **H.H. Sandeep Alshi, Compiler of Sanatan's Texts (24.7.2022)**

Everyone wants to look beautiful and there is nothing wrong in this. Skin ailments affect the appearance of an individual directly. How to improve beauty by eliminating skin ailments, has been described beautifully since ancient times in Ayurveda. There are two Volumes on the subject of 'Skin diseases'. In the first Volume, topics such as arrangement of the skin, measures to be taken for keeping the skin healthy have been discussed. Additionally, the symptoms of ailments associated with beauty such as burning of the skin, urticaria, skin ailments associated with beauty, etc. have been discussed and the remedial measures have been given.

In this Volume information has been provided on the symptoms and treatment on ailments such as scabies, ringworm, leucoderma. Readers will also learn about hair related ailments such as dandruff, seborrheic dermatitis, baldness, other problems and the associated treatment. This Text also elaborates on the various natural and artificial cosmetics, and their uses. Both the Texts are worth reading for obtaining information on skin diseases and making efforts to maintain the health of the skin. One among the many reasons for the skin diseases is 'demerits of the past life' and the ancient Texts on Ayurveda advice Divine measures for curing them. These Texts also mention these Divine remedial measures. They have been taken from the Sanskrit Text 'Bruhat Nighantu Ratnakar'.

Our prayer at the Holy feet of Vayudevata (Deity of Air) that may all be inspired to understand the rules of Ayurveda and act accordingly and may everybody's skin remain healthy and lustrous ! - **Authors**
