## Introduction to Authors

### **Sanatan Sanstha's Sadguru, Doctor & Vaidyacharya Vasant Balaji Athavale**

[M.D. (Paediatrics), D.C.H., F.A.M.S.]

Sadguru (Dr) Vasant Balaji Athavale was a renowned Paediatrician. He founded the Paediatrics Department in 1959 in Lokmanya Tilak Mahanagarpalika Hospital, Mumbai. He was Professor and Head of this Department from 1960 to 1990. He was the Chairman of the 'International Conference on Alternative Medicine' in Bangkok in 1980. In 1996, He received the international honour for the 'Best author of books on Ayurveda'. In 2001 and in 2012 respectively, He was honoured with the 'Lifetime Achievement Award' in an International conference on 'Ayurveda and Hepatic Disorders' and by the Indian Academy of Paediatrics.

#### **1. The journey from being a seeker to becoming a disciple**

**A. Selflessness and the attitude of sacrifice, which are essential for spiritual practice :** He started noting down higher level philosophical thoughts on Spirituality in 1980. He toiled day and night to create a vast treasure of knowledge on Spirituality. Very altruistically, He donated this treasure to Sanatan Sanstha in 1990, soon after it was established. This sacrifice, before He became a Saint, indicates the level of His spiritual practice and seekership. Due to His writings, Sanatan's Texts are now becoming inclusive in the true sense.

**B.** In 2004, He became a disciple of Sachchidananda Parabrahman (Dr) Athavale (A great Saint who is also His younger brother and the Founder of Sanatan Sanstha, the world-renowned spiritual organisation).

## 2. Attaining Sainthood

On 16.12.2012, He reached Sainthood due to His spiritual emotion, intense yearning, inquisitive nature and humility.

**A. He attained Sainthood by performing spiritual practice through various Paths of Spirituality :** Every person performs spiritual practice as per some path of Spirituality, becomes introverted, progresses spiritually and thus moves towards Sainthood. However, Dr Vasant Athavale attained Sainthood by performing spiritual practice as per Karmayoga (Path of action) by serving His patients, Jnanyoga (Path of knowledge) by writing Texts, Bhaktiyoga (Path of devotion) and Gurukrupayoga (Path of Guru's grace).

## 3. Active in seva for Sanatan's mission until His last breath

He kept performing satseva for Sanatan's mission until His last breath. When He came to know of Divine particles found in Sanatan's Ashram, He inquisitively studied the subject, contemplated on how to conduct research on this topic from a scientific perspective and gave His own suggestions.

He renounced His body on 9.11.2013 at the age of 80.

### **Clarification on prefixing a title to Paratpar Guru (Dr) Athavale's Name**

Great Maharshis have written the future in the Jeevanadipattis thousands of years ago. Saptarshis guide Sanatan Sanstha through the medium of Jeevanadipatti Readings. As per the instructions of Saptarshis through the medium of Saptarshi Jeevanadipatti on 13.7.2022, the title 'Sachchidananda Parabrahman' has been prefixed to Paratpar Guru (Dr) Athavale's Name. Even if this be so, seekers have earlier (and continue today too) addressed Him as 'Param Pujya' [or His Holiness] and 'Paratpar Guru' in their writings. We have retained the way He has been addressed by the seekers.

‘अग्निरेव शरीरे पित्तान्तर्गतः कुपिताकुपितः शुभाशुभानि (कार्याणि) करोति ।’ (Charaksanhitā, Sutrasthān, Adhyaya 12, Shloka 11)  
 Meaning : Ayurveda says, ‘Fire actually dwells in the Pitta. If this fire becomes flawed, it leads to development of ailments and if it is in good condition, it helps maintain good health.’  
 According to Ayurveda, body resistance depends on the digestive power. The analysis of the ailments associated with the digestive power is given in the two Texts - ‘Ayurvedic treatment on indigestion, vomiting, stomachache, etc.’ and ‘Ayurvedic treatment on dysentery, constipation, piles, worms, etc.’ It is worth reading both the Texts for understanding the entire subject associated with the digestive system.

In every household the ailments associated with the digestive system appear some or the other time with some member. At such times, these ailments can be controlled through household medicines and dietary restrictions. In fact, on the ailments associated with the digestive system, only Ayurveda has expressed better treatments than modern medicine.

We pray at the Holy feet of Deity Dhanvantari - ‘May the readers be able to avoid ailments associated with the digestive system, and may they get proper guidance to overcome the associated ailments’. - **Authors**
